

## Mastic PVC

Immediate use. No need for hardening. Apply and bake. Mastic PVC is a PVC-Epoxy-Blend (solvent-free) for medium solid metal adhesion.

| Part number | Color           | Temperature | Capacity |  |
|-------------|-----------------|-------------|----------|--|
| MPVC-600    | Grey (RAL 7004) | 180 °C      | 600 ml   |  |
